ABSTRACTED-PUB-NO: JP2001061186A

BASIC-ABSTRACT:

NOVELTY - Radio station contains one or more download base stations for transmitting download channel for downloading software. Information about download channel which downloads desired software, is acquired by information acquisition apparatus (4) by accessing broadcast channel. Software download apparatus (3) is provided to download desired software.

DETAILED DESCRIPTION - INDEPENDENT CLAIMS are also included for the following:

(a) Software download procedure;

(b) Radio terminal

USE - For mobile communication systems using portable telephone.

ADVANTAGE - Radio terminal with high versatility and radio communication system with flexibility and simplicity are realizable.

DESCRIPTION OF DRAWING(S) - The figure shows the component of radio terminal.

(The drawing includes non-English language text).
